CONFIDENTIAL

PROCUREMENT DIVISION WEEKLY REPORT FOR PERIOD ENDING 06 JULY 1983

- Progress Report of Tasks Assigned by the DCI/DDCI: No tasks assigned during this reporting period.
- 2. Items or Events of Major Interest that have Occurred During the Preceding Week:

a. RFP 83A-166 Bid Protest - In May,
protested the award of Request for Proposal (RFP) 83A-166 to

Since that meeting,
P&SCB has received several requisitions from the Office of
Communications (OC) to add on to the contract awarded to

The items requested make up a package similar
to RFP 83A-166 and it was decided to solicit bids for this
equipment rather than add on to the existing contract.
However, the new RFP package has been revised taking into
consideration several of the concerns expressed at the
debriefing. This new package makes the solicitation more fair
to all bidders. The new RFP will be mailed to the bidders by
7 July 1983 and award is anticipated by 30 August 1983.

b. Change-in-Scope to Contract No. 82*A144540*000 - On 5 July 1983, the Agency Contract Review Board (ACRB) reviewed and recommended Director of Logistics approval for an \$800,000 change-in-scope to the above contract. Funds were authorized for the following tasks:

- (1) Development of launcher and data link test and alignment procedures. Originally it was intended to use the procedures being developed by another contractor for the program to minimize duplication of effort. Failure of the other contractor to complete their procedures on time coupled with a customer dictated change in the training location and schedule, necessitates the development of this procedure by BDM.
- (2) Customer requested conversion to four (4) sets of two (2) vans requiring reconfiguration of the vans and the fabrication/installation of special purpose equipment, plus the purchase, testing, and installation of general purpose equipment.
